# Introductory

---

The present volume constitutes the 1944 edition of Henderson's Directory of Edmonton. The work embodies a complete epitome of the civic, commercial, social, and industrial interests and activities of the municipality. It is a modern Directory in all its parts and includes all the essential features which have been proven so satisfactory to our patrons in previous issues; these have been retained and amplified, and improvements have been added as suggested by experience in order to add to the value and usefulness of the Directory thus fully meeting the requirements of patrons; the approbation and continued patronage accorded the work are constant incentives to better service.

The publication has had the benefit and advantage of the complete organization and resources of the publishers, and of the skill and experience of their corps of enumerators and compilers added to the courteous co-operation of citizens, in the production of the volume.

To save paper it has been necessary to condense the information by changing the streets to three columns, and also increasing the number of names on the page of the alphabetical section. This has been done to comply with provision of Order No. 295 of the Wartime Prices & Trade Board.

## THE STREET AND AVENUE GUIDE

THE STREET AND AVENUE GUIDE starting on page 73 features the names of all streets and avenues arranged alphabetically and numerically, giving the location, number on the street and showing the occupant.

The intersecting streets are shown in the order that they come.

\* Denotes that there is a Telephone in the house.

## THE ALPHABETICAL DIRECTORY

THE ALPHABETICAL LIST OF NAMES of citizens, business firms and corporations starts on page 205.

## THE CLASSIFIED BUSINESS DIRECTORY

THE CLASSIFIED DIRECTORY at the end of Book, and exhibits the various manufacturing, mercantile, and professional names, compiled under headings appropriate to the class of industry or profession followed.

## EDMONTON POPULATION

The population of Edmonton and its suburbs of Beverly and West Jasper Place now exceeds 110,000. The Civic census taken in June 1942 gave Edmonton a population of 96,725. The Federal census for 1941 gave Edmonton 93,817. Edmonton's population in 1901 was 4,176 increasing to 14,088 in 1906.

## ADVERTISING EDMONTON

An important function of the Directory is to set forth the characteristics and advantages of the city as a place of residence, as a business location, as an industrial site, and as an educational centre. The Directory acts as a mirror, reflecting all that is noteworthy in the city in the above respects. In order to spread this information regarding the city broadcast over the country, the publishers have placed copies of this issue of the Directory in the directory libraries, where they are readily available for reference use by the public. There they serve as perpetual advertisements of Edmonton, for business men the country over realize that the City Directory represents the community as it really is.

The publishers take this opportunity of thanking the citizens for valuable assistance rendered in the way of furnishing information concerning themselves, their friends and their business interests for this Directory, and also the public-spirited and progressive business and professional men for support given in the way of patronage.

Respectfully, The Publishers

HENDERSON DIRECTORIES (ALBERA) LIMITED.

## STRATHCONA

# Edmonton

Edmonton is the capital of Alberta. As a name in Canadian history it dates from 1795. In that year the Hudson's Bay Company built a fur post on the North Saskatchewan River about 25 miles below the site of the present Edmonton, beside Old Fort Augustus, built the previous year by the Northwest Fur Company. It was named after Edmon-ton, near London, England, by George Sutherland, the Hudson's Bay officer who built it because that was the birth-place of his clerk, John Pruden. In 1807 both Old Fort Edmonton and Old Fort Augustus were destroyed by the Blood Indians and both companies promptly built new posts—New Fort Edmonton and New Fort Augustus, on the bank of the river where the city stands today. After the amalgamation of the two great fur companies it be-came the principal fur depot of what is now known as the Province of Alberta.

From Fort Edmonton the windings of the Saskatchewan River could be fol-lowed for hundreds of miles and never a flotilla up or down stream but halted to trade beneath its wooden walls. Overland trails led southwards to the Blackfoot Country, and northward to the Athabasca River, the great fur-bearing country of the Crees, the Beavers and the Chipewyans.

Every spring the furs, the leather and the pemmican, gathered from a hundred points, were sent down the river to York Factory and exchanged for goods needed in the fur trade.

Today the trails are laid with railway lines and highways, while on the site of the old fort now stand the Parlia-ment Buildings of Alberta, and on the opposite bank of the river the magnifi-cent buildings of the Provincial Univer-sity. Around the old site in the most modern fashion paved streets, spacious parks, stores, houses, and factories have been built and the former fur post has grown into a metropolitan city. The situation is ideal from the standpoint of landscape beauty, and as wealth and population increase, Edmonton will rank as one of the beautiful cities of the continent.

### EDMONTON POPULATION

1901	4,176
1906	14,118
1916	53,846
1926	65,163
1936	85,676
1939	90,419
1940	91,723
1941	93,924
1942	96,725
1943	112,000
1944	110,000

### LOCATION AND ADVANTAGES

Edmonton (latitude 53—35; longitude 113—30) is located 318 miles north of the boundary between Montana and Al-berta; 200 miles east of the Rocky Mountains; 770 miles from Vancouver on Canadian National Railways via Jas-per; 840 miles from Vancouver on Cana-dian Pacific Railway via Banff and Calgary; and about 800 miles west of Winnipeg via either Canadian National or Canadian Pacific.

It is the commercial and financial centre of 75,000 square miles of terri-tory, rapidly increasing in population and wealth, and contains at the present time 600,000 people distributed on the farms and in the towns and villages of

Central and Northern Alberta. More-over, it is the natural gateway to a vaster region now being developed—a region comprising nearly one-quarter of the area of Canada, namely: the Upper Valley of the Saskatchewan, the great drainage basins of the Athabaska, Peace, Slave, and MacKenzie Rivers and the western half of the Precambrian Shield. A growing and lucrative trade is growing up with that wonderful North, and Edmonton merchants send their goods to every mining camp, fishing station, fur post and trapper's cabin from McMurray to the Coronation Gulf.

The discovery of rich pitchblende, gold and silver deposits on the eastern shores of Great Bear Lake and gold and silver in Great Slave and Atha-baska Lake has raised the importance of Edmonton in relation to the devel-opment of Canada's hinterland.

### NATURAL GAS

Edmonton has an abundant supply of natural gas, a supply that should last from forty-five to fifty years. The pres-ent sources of supply are the Viking and Kinsella Fields located about 80 and 90 miles respectively east of the City. Over 15,000 consumers in Edmon- ton use gas for domestic, commercial and industrial purposes, the majority of which use gas for heating. The annual consumption is about six billion cubic feet.

### A CENTRE OF TRANSPORTATION

Edmonton is the centre of transporta-tion for Alberta and the North, from which radiates a net-work of railway lines extending into the Peace River area, eastward and westward to the borders of the Province, and southward through a rich agricultural and farming area. Transcontinental lines of the Can. National Railways pass through the City and the Canadian Pacific Rail-way makes contact with many points through which the transcontinental lines of that Company pass.

The headquarters of the Northern Alberta Railways is in Edmonton and this railway has multiplied its equip-ment and facilities many times since the outbreak of war.

The Hudson's Bay Transport, North-ern Transportation Company and other important agencies, plying into the Northwest Territories through the lakes and via the Mackenzie River, have their offices in Edmonton.

The airways development of the con-tinent has brought Edmonton into prominence as one of the strategic centres of air transportation. The head offices of Canadian Pacific Air Lines are located here and it is a centre of the Canadian Airways Training program.

Trans-Canada Air Lines maintains adequate service to both East and West and is contemplating development into the North.

The City is also an important high-way centre. A good road exists from Edmonton to Jasper Park, 248 miles west, thence via the famous Jasper-Banff Highway to Lake Louise and Banff. The widely publicized Alaska Highway, over 1,600 miles in length, has its start at Edmonton, thence north by way of Lesser Slave Lake, Peace River and Grande Prairie, to Dawson Creek and Fort St. John, thence to

917.1233 Ed 58 A

~~801940~~

Whitehorse and Fairbanks. The road is at present a military road and tourist and civilian travel is restricted.

#### **HOTELS AND ACCOMMODATION**

The City has numerous hotels, apartment houses and private boarding houses that cater to every class of tourist and traveller, but accommodation, at the moment, is being taxed to the limit, owing to great increase in population. The Macdonald Hotel, built in beautiful chateau style, after the famous Chateau of the Loire Valley in France, is one of the finest in Canada.

As befits a city serving so large a community, Edmonton's retail stores are large, numerous and well-stocked. They vie with thousands in larger and older cities in the display of things new and beautiful. They range from the big department store to the specialty shop and the modest corner store. Every style of mercantile trading is represented by the various wholesale houses and jobbing firms.

The Auto Camp, situated on the Edmonton-Calgary Trail, provides motor tourists with most of the facilities of a modern tourist camp—kitchen, laundry, cabins, etc. The Edmonton Division of the Alberta Motor Association, centrally located near the Market Square, welcomes all motorists and gives touring information and other assistance free to visitors.

#### **PARKS AND RECREATION**

Edmonton has plenty of places of interest both within and without its borders. The social side of life—sport and recreation—is fostered by many organizations and clubs. The theatres give the public the best in moving pictures, vaudeville and road shows. Tennis, baseball, football, cricket and other games are well provided for either by special athletic grounds or in the several city parks. Outstanding is the Clarke Stadium that has a seating capacity of 4,000. The Stadium grounds comprise 8.6 acres and provide for rugby, soccer, lacrosse and track events. Contiguous to the Stadium are a cricket pitch, hard and softball grounds.

The principal parks are: Victoria, 200 acres; Riverside, 30 acres; Borden, 60 acres; and Exhibition Park, 80 acres.

Edmonton's Annual Summer Fair draws thousands of visitors. Breeders of livestock from all over Canada and many states are regular exhibitors.

#### **AIRPORT AND SEAPLANE BASE**

Edmonton has one of the most famous airports on the continent. Some five principal air corporations use the hangar and flying field. It is owned and managed by the City. Twenty miles east of Edmonton, Cooking Lake is used as a seaplane base for the vast aviation trade and mail business carried on between Edmonton and the numerous mining fields and trading posts of the North West and Yukon Territories. There is also a convenient, excellent water landing on the Saskatchewan River on the eastern confines of the city. However, for the duration, these facilities are under lease to the Department of Transport. A satellite airport is in process of construction 5 miles from the city to supplement the facilities of the main airport.

#### **EDMONTON GOLF COURSES**

Devotees of the royal and ancient game of golf find in Edmonton a perfect setting for their favorite out-of-door sport. The bright, pleasant days of spring and summer with their long twilight evenings provide ideal golfing

even after the business of the day is over.

Edmonton Golf and Country Club: The Country Club course occupies a commanding situation on the banks of the Saskatchewan River, some eight miles south-west of the City.

Mayfair Golf and Country Club: The Mayfair course is beautifully situated in the valley of the Saskatchewan just beyond the University of Alberta.

The Municipal Golf Course, in Victoria Park, is one of the beauty spots of Edmonton. On the one hand rises the green slope of the valley; on the other, the Saskatchewan River winds through tree-clad banks. The valley curves with the bends of the river, the whole forming a natural amphitheatre—fit spot for a city's playground.

The Highlands Golf Course in the east end of the City and the Prince Rupert Golf Course, the latter operated by the Hudson's Bay Company, a mile from the centre of the City.

The Prince Rupert Golf Course, operated by the Hudson's Bay Co., close to the centre of the city, is the latest addition and is becoming very popular.

#### **MUNICIPAL SWIMMING POOLS**

Edmonton is well equipped for safe out-door bathing. Three modernly equipped swimming pools are in operation during the spring, summer and autumn months.

The pools are under the direct charge of the City Engineer. Each pool has a qualified swimming instructor. The water is filtered, heated and sterilized and bacterial tests are regularly made by the city bacteriologist.

#### **COMMUNITY ORGANIZATIONS**

The Principal Service Clubs are well represented in Edmonton. Rotary meets Thursday noon at the Macdonald Hotel; Kiwanis, Monday noon at Macdonald; Gyro, Tuesday noon at Macdonald; Optimists, Thursday noon at Macdonald; Kinsmen, every second Friday at Macdonald Hotel; Cosmopolitan, Tuesday at Corona Hotel. Y's Men's Club, Tuesday at the Y.M.C.A.

All fraternal societies are represented by strong organizations.

#### **EDMONTON CHAMBER OF COMMERCE**

Edmonton has had a Chamber of Commerce for over 50 years. Information on all matters relating to the resources of the district, business opportunities, is freely given by a competent staff in the McLeod Building, opposite the Post Office. Hereto is housed the Accommodation Bureau, operated by the Chamber of Commerce, in conjunction with the city of Edmonton, in an attempt to solve Edmonton's accommodation problem.

#### **A WHOLESALE AND JOBBING CENTRE**

The key position of Edmonton on the map of the Northwest and described above, makes it an important distributing point for a large territory. From the earliest times it was a natural trading centre. In the days of the fur trade it was the principal point west of Winnipeg on the transcontinental route and the head of navigation on the North Saskatchewan river. From Old Fort Edmonton via Fort Assiniboine, the goods for the Hudson's Bay posts west of the Rocky Mountains were regularly despatched. Today Edmonton holds an analogous position in the trade of Western Canada. Besides many independent local firms the number of wholesale houses includes branches of the most

important firms of Eastern Canada and the United States, representing every branch of mercantile trading.

### INDUSTRIES

The vast supplies of raw materials available in the area adjacent to Edmonton and its central location for distribution, makes Edmonton a key City for industrial expansion. Dairy and meat packing industries are firmly established and rank amongst the top in the Dominion. Garment factories, iron foundries, steel and sheet metal products and many other industrial lines are produced here. The available supply of coal and natural gas as economical fuel make Edmonton a favorable location for those contemplating an industry in Western Canada.

### A GRAIN CENTRE

Edmonton is the centre of the grain trade for Northern and Central Alberta. A Government Terminal Elevator has storage capacity for 2,500,000 bushels, and most of the important grain companies of Western Canada, including the Wheat Pool, are represented on the Edmonton grain market.

### EDMONTON LIVE STOCK YARDS

One of the public terminal livestock markets of Canada is located at Edmonton and operated under government supervision. In 1943 livestock to the value of over \$52,000,000 passed through Edmonton Live Stock Yards and the various packing plants of the city.

### AGRICULTURE

Among the Provinces of Canada, Alberta is regarded as one of the richest and most varied in natural, undeveloped wealth. Edmonton is the centre of the largest area of agricultural land of any city in Canada. Most of the land is still in the raw state, but annually over half a million acres of new land is brought under cultivation. The finest quality of wheat, oats, barley, and peas are grown.

Wheat grown in Northern Alberta has been winning prizes at world fairs since 1876. In that year, wheat grown by the Roman Catholic Mission at Fort Chipewyan won highest award at Philadelphia. In 1893, wheat from Peace River won first at the World's Fair, Chicago. Herman Trelle of Grande Prairie, has won twice in succession with wheat and oats at the International Grain Show, Chicago. In 1929 Mr. J. H. B. Smith, of Wolf Creek, 100 miles west of Edmonton, won the same distinction, and in 1930, 1931, 1932 and 1936, Herman Trelle of Wembley repeated his former successes at Chicago. Land and climate that produce cereals of such high quality are among the greatest of a country's natural resources.

### DAIRYING

Agriculture in the Edmonton District is developing rapidly along mixed farming lines. Edmonton is the heart of the dairy industry of Alberta and large shipments of butter, cheese and eggs are being exported to the Old Country.

### COAL

Alberta contains 18 percent of the coal supply of the world and 85 percent of the coal of Canada. In the Edmonton District it is estimated there are thirty billion tons of known coal reserves.

### OIL AND ASPHALT

Alberta has recently become the greatest oil producer in the British Em-

pire. Important developments are in progress in the Turner Valley field in Southern Alberta. Edmonton is particularly interested in the Wainwright and Vermillion oil fields east of Edmonton on the C.N.R. Here an area of several thousand square miles is regarded as a favorable oil field.

### SALT

Tributary to Edmonton are salt deposits sufficient to supply Western Canada. Beds 100 and 200 feet thick have been found at Fort McMurray. Salt works have been erected and 1942 output reached 22,179 tons value.

Two hundred and fifty miles north of Edmonton in the vicinity of McMurray, there is an area of 15,000 square miles of bituminous sands. These deposits are of great economic value in the construction of hard-surfaced roads. The Research Department of the University of Alberta, and the Mines Branch of Canada, are experimenting on the best methods of separating the bitumen from the crude oil contained in these wonderful deposits. It has been estimated by geologists that these sands on the basis of 10 gallons of crude petroleum per ton contain 30,000 million barrels.

Active development has begun on the bituminous sands by Abasands Ltd.

### FISHERIES

The fresh water lakes of the Edmonton District provide a growing industry in whitefish and trout, and other commercial fish. Over 7,300,000 pounds annually were taken from these lakes. Fishing is carried on in winter and summer seasons. The output is sent to the United States.

### LUMBERING

Lumbering in the Edmonton district is reaching vast proportions and mills in the district are being hard put to meet market demands.

### EDUCATION

Edmonton is the educational centre of Alberta. It is the seat of the Provincial University and has an excellent organization of primary and secondary schools. The University was founded in 1906 and opened for teaching in 1908. It has grown to be one of the outstanding institutions of learning in Canada, with a staff of over 100 professors and an attendance of 2,000 students. Degrees are granted in arts, science, agriculture, engineering, medicine, pharmacy, law, and commerce. The University of Alberta is the only body in the province that has the power of granting degrees of academic proficiency. St. Stephen's College (United Church of Canada) and St. Joseph College (Roman Catholic) are theological institutions affiliated with the University.

### PRIMARY AND SECONDARY SCHOOLS

There are forty-one Protestant schools for teaching the primary grades, and thirty-six Roman Catholic schools, including the work done in the convents. The needs for secondary education are met by six Protestant High Schools and four Roman Catholic High Schools. This includes the Technical High School and the Commercial High School.

In addition there are a number of private schools and business colleges.

### LIBRARIES

Edmonton has two excellent libraries. The Edmonton City Library contains 115,971 volumes. A street car has been equipped as a travelling library to serve

outlying districts and in 1942 had a circulation of 73,692.

The Provincial Library, situated in the Parliament Buildings, contains 50,000 volumes, and is rich in works and documents relating to the early history of Western Canada.

### HOSPITALS

Edmonton has four hospitals of the first rank—The Royal Alexandra (municipal) 565 beds; the General, operated by the Grey Nuns, 275 beds; the Misericordia, operated by Sisters of the Misericordia, 225 beds; the University Hospital under control of the University of Alberta. Isolation Hospital, 100 beds (municipal). In addition there is a branch of the Provincial Mental Institute, and a special hospital operated by the Provincial Health Department for victims of infantile paralysis.

### CITY GOVERNMENT

Edmonton is governed by a Council composed of ten aldermen, elected for two years, one-half retiring each year, presided over by a Mayor, elected for one year, and a Board of three Commissioners, one of whom is the Mayor. The aldermanic board or Council may be termed the legislative arm, and the Commissioners the executive arm of the municipal machinery. The Commissioners have "a general jurisdiction over the affairs of the city, including the care, management and control of the police, fire brigade, and other public services and of the public works and utilities of the city, and of all property works, improvements, roads, streets, and other public places owned and controlled by the city and such other powers and duties as may be designated to them by the Council."

The Council has full control of raising and expending funds required for city administration, and over the rates and the charges for the various public utilities owned and operated by the city.

Libraries, municipal hospital, Board of Health, sinking funds, exhibitions, public welfare, are administered by appointed boards which are under the direct control of Council.

For a few years the Mayor and aldermen were elected by the method of proportional representation, but this system, after a plebiscite was taken, was abandoned in 1928.

### THE ELECTORAL BODY

Every person 21 years of age or over who is a British subject and who has resided six months in the City is entitled to be on the voters' list. There are two classes of electors—burgesses and others. Burgesses alone may vote on money by-laws. A burgess is an elector who is assessed on real property, minimum value \$200, or pays a business tax on the same amount.

Elections for the City Council are held on second Wednesday in November; nomination of candidates the penultimate Monday to this date; hours of polling 9 a.m. to 5 p.m. which may be extended to any convenient hour approved by Council.

### ASSESSMENT, TAXES, ETC.

Land is assessed at its full actual value, and improvements may be assessed at 60 percent of their value, residences 50 percent. Business taxes are assessed on a percentage of the rent

paid by the ratepayer on a graduated scale, the average of which is 10 percent. There is also a special tax on franchises based on gross earnings. Appeals against assessments lie to the Commissioners and Council with a final appeal to a judge of the District Court. Other revenue for city purposes is derived from license fees, market fees and surpluses on the utilities, which runs over one million per year.

### TAX RECOVERY

If taxes are not paid on real property before November 1st of the year following in which the tax is due, the assessor files a caveat in the Land Titles Office. The owner then has two years to redeem which, if not done, the title automatically vests in the city without further procedure.

### TAX EXEMPTIONS

Exemption from taxes apply to following classes of property: places of worship (1 acre), city property, crown property, burying grounds, public schools, institutions of learning and hospital to extent of 4 acres. The latter institutions are liable for local improvement taxes.

### MUNICIPAL OWNERSHIP

Edmonton owns and operates all the public utilities of the city—light, power, telephones, waterworks, street railway and airport. The principle of public ownership has been firmly adhered to by the people of the city since the purchase of electric light system in 1902, when the then town of Edmonton made its first venture upon this policy.

On the whole, this policy has been successful in Edmonton. Since its inception over 30 years ago, the city's utilities have made a total surplus classified as follows, as of the 31st of

December, 1943:

Electric Light .....	\$ 4,959,790
Power Plant .....	5,985,509
Telephones .....	4,256,322
Waterworks .....	2,429,153

Total .....	17,630,775
Less Deficit on street railway .....	1,242,018

Total net surplus ..... 16,388,757

In addition to the foregoing surplus the several services have set aside reserves of over \$2,000,000 to provide for extensions of plants and for new equipment, bringing the total surplus over \$17,000,000.

### ELECTRIC POWER PLANT

Electricity is generated by steam produced in a boiler plant fired by Edmonton coal, and consists of 16 water tube boilers. The capacity of the turbine generators is 40,000 kilowatts. In 1927 a new 10,000 kilowatt turbine generator was added to the plant. It was the first turbine of this capacity on the continent operating at the high speed of 3,600 revolutions per minute. The current is at a voltage of 13,000 volts and at this pressure is transmitted to the outgoing feeders. In 1939 was added Steam works generator, 15,000 k.w. capacity; 1 Sterling boiler type, capacity 155,000 pounds per hour; new pumping

station to supply circulating water for new equipment.

#### **WATER PUMPING AND FILTRATION**

Water is pumped from the Saskatchewan River. Due to turbidity at high water periods all water for domestic and industrial purposes is filtered and sterilized before forced into the city mains. Low-lift pumps with a capacity of 54,000,000 gallons per day raise the water from the river to a mechanical clarifier basin, where sediment is removed. Thence the water flows into agitator tanks to which a proper amount of sulphate of alumina is added, forming aluminum hydrate. The water then flows into large stilling basins where the hydrate coagulates all the sediments and deposits them on the bottom of the basin. Now the water is ready for filtering through sand and gravel beds which remove all traces of foreign matter and most of the bacteria (if present). Before the water is sent by high lift pumps into the mains it is treated with liquid chlorine in quantities proportioned to bacterial tests, which are made daily. By these means the water supply is clear and pure. The pumps have capacity of 28½ million gallons per day.

#### **THE STREET RAILWAY**

The street railway system commenced operation on November 9, 1908, with 12 miles of track and 2 cars. By 1914 trackage increased to 52 miles and rolling stock to 87 cars, 12 Trolley Busses and 13 Motor Buses. Since that time there has been little expansion. By reason of the large area of the city and wide river valley, causing the line to be operated through non-populated distances, this utility has been the weak sister of the municipal group. Conditions, however, are improving and before long the street railway is expected to move over to the surplus column. Present mileage 56 miles. Number of passengers carried in 1943, 30,720,318.

#### **TELEPHONES**

Edmonton embarked in the telephone business January 1st, 1905, by purchasing the Edmonton District Telephone Company. In 1908 the Strowger Automatic system was installed and 800 subscribers cut over from the old

magneto switch board. Since that time there has been an average increase of 700 telephones every year. By the end of this year most of the subscribers will be cut over to a new two-wire Strowger system, cost over \$500,000. The plant is now arranged on a 5-digit system with an ultimate capacity of 99,000 lines. Miles of wire, 67,285; 87 private branch exchanges; 4 private automatic exchanges, and 168 public pay stations.

#### **GENERAL STATISTICS FOR 1943**

Population .....	105,536
Bank Clearings .....	\$430,430,208
Net Assessment .....	59,051,255
Tax Collections .....	4,593,304
Gross General Funded	
Debt .....	19,058,994
Municipal Assets .....	28,747,226

#### **WATERWORKS DEPARTMENT**

**Municipally Owned**—Operated by Council and Commissioners.

**Supply**—Pumped from North Saskatchewan River at centre of distribution.

**Electric and Steam Driven Pumps**—Capacity low lift 35,000,000 gallons per day. High lift 35,000,000 gallons per day. Stand by steam 8,000,000 gallons per day.

**Reservoirs**—One and one-half million gallons capacity; also 1,500,000 gallons capacity Sedimentation and Dorr Tanks mechanical clarifier and agitator tanks. Chlorine and Alum mechanical mixers and necessary buildings.

**Purification** — 16 Roberts Mechanical Filters. Two 30" and one 20" direct high pressure feed mains to City.

**Distribution System** — Comprises 126 miles C. I. mains, 27 miles of wood mains and 56 miles of steel mains. Total mileage of Distribution System —209 miles.

**Meters and Rates**—80% of whole distribution system metered rates from 28c per 100 cubic feet down to 11c per 100 cubic feet—according to consumption.

**Consumption**—8,000,000 gallons per day. Domestic per capita consumption per day—52 gallons.

Total daily per capita 87.9 gallons.

Year's average normal increased consumption—2.2%

# Civic Administration

## COMMISSIONERS, 1944

Mayor—J. W. Fry  
Commissioners—R. J. Gibb and J. Hodgson

## CITY COUNCIL

Mayor—J. W. Fry

### 1944-1945

Aldermen—H. D. Ainlay, M. M. Downey,  
J. M. Douglas, C. E. Gariepy, R. W.  
Hamilton.  
City Clerk—A. Russell.

### 1943-1944

Aldermen—A. Bisset, S. S. Bowcott,  
F. J. Mitchell, J. H. Ogilvie, and  
S. Parsons

## SINKING FUND BOARD, 1944

(Sec. 315, City Charter)

Regular meetings—Wednesdays, 9.30 a.m.  
Chairman—Ald. F. J. Mitchell  
Secretary—C. M. Smail

## SPECIAL NOTICE

\*—This Symbol indicates that a telephone is located at this number on the street at residence.

This Phone information is compiled by a special house-to-house personal canvass. We do not guarantee to be absolutely correct in every detail, but we believe it to be very accurate and complete, as far as it has been possible for us to get the information personally from residence.

 this directory will inform you

Consult its pages

# 4 in 10

**Over forty per cent. of  
your customers move  
each year and new  
ones move into your  
district. An advertise-  
ment in the City Direc-  
tory will enable new  
customers in your dis-  
trict to find you**

**Henderson Directories Ltd.**

**More than  
ninety per cent. of  
all advertising mediums  
are discarded before  
they're a year old**

---

---

After the new ones come out  
your advertisement in the di-  
rectory is still good, for old  
directories are seldom dis-  
carded while they hold to-  
gether. Years later many of  
these directories will still be  
in active use. Your advertise-  
ment is still in service

**Do you want LONG-LIVED advertising?**
